

To whom it may concern,I want to state my concern about the issues raised by the NBA about XM radio provideing traffic and weather on thier service. I am a over the road truck driver and this service is a valuable to me. I use it to plan my trips and keep ahead of the conditions as far as weather and traffic. I can get the weather long before I get in range of any local stations and plan accordingly. With the new hours of service {HOS} regulations this is very important. I can plan my route and arrival times to my best advantage.

Thank you for allowing me to state my concern.
